Build both lift arms per instruction booklet with the following exceptions:

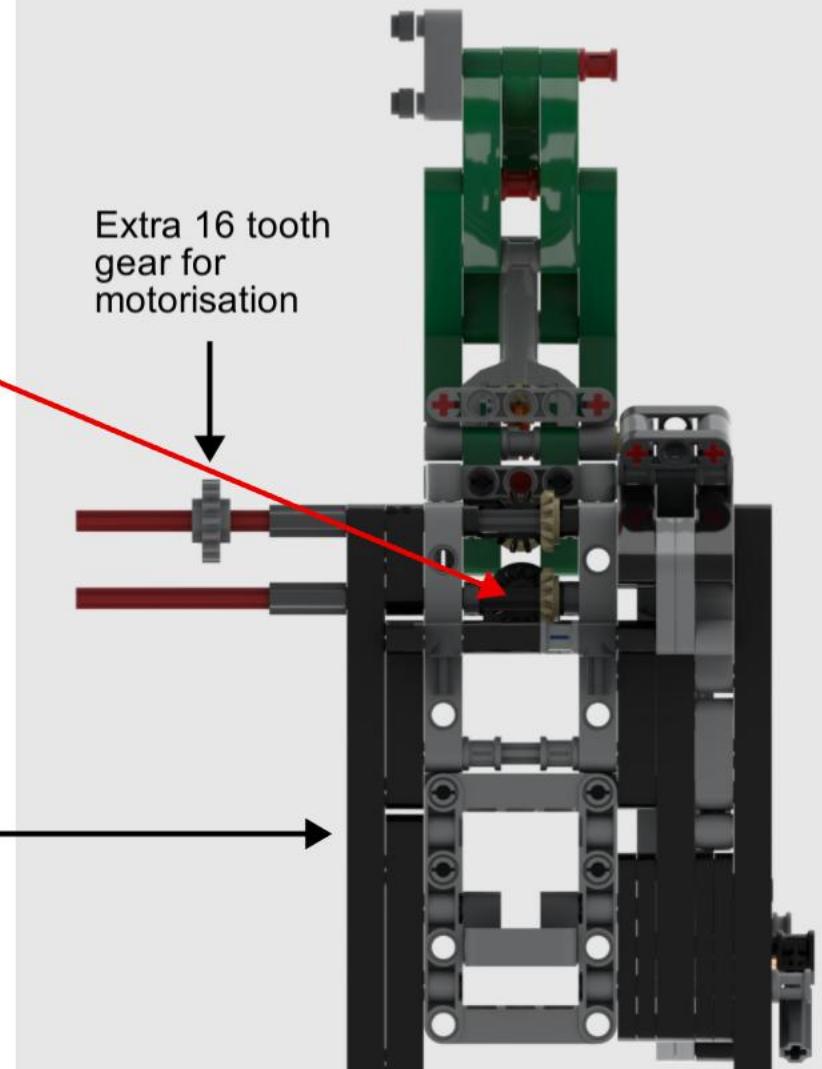

- Remove the red axle in the middle (can be done after building).
- The rear lift arm gets an extra gear
- The yellow 9L axle holding the linear actuator has been replaced with a black 8L axle.
- Gears at the back for manually operating the lift arms have been removed.

The following pages are just a brief summary of the booklet steps.

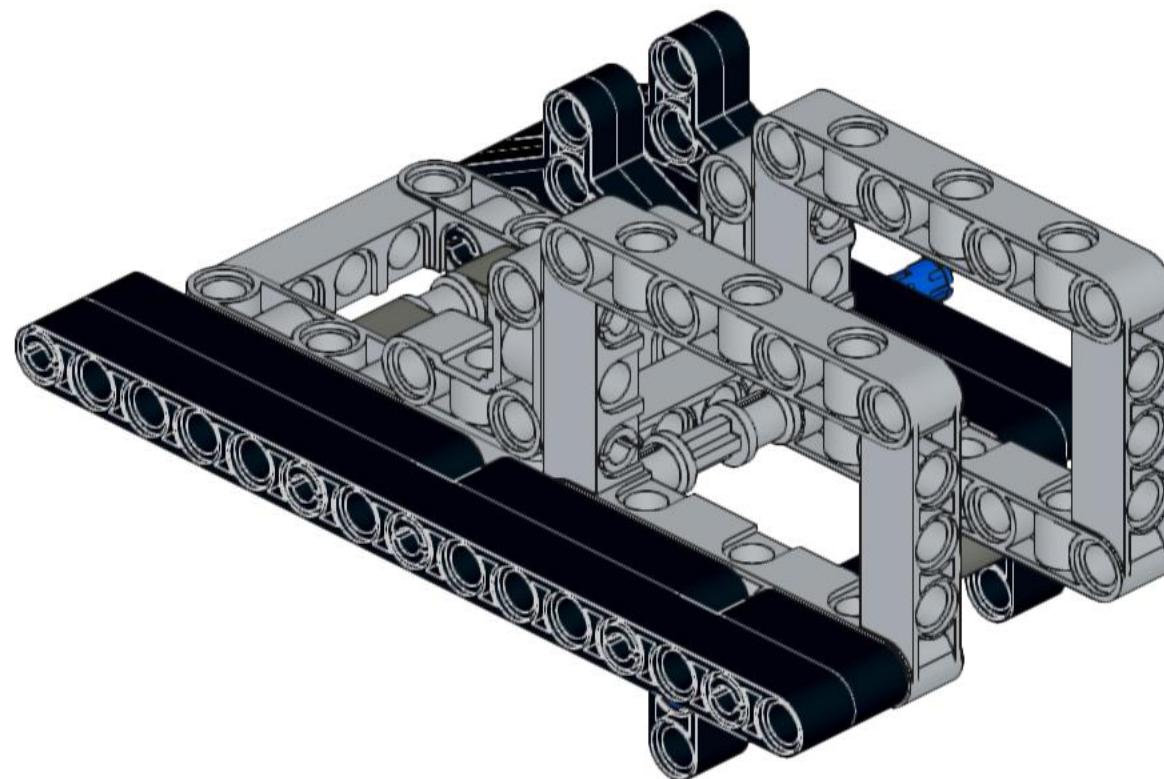

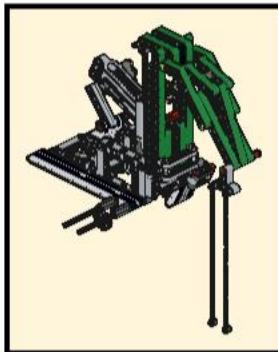

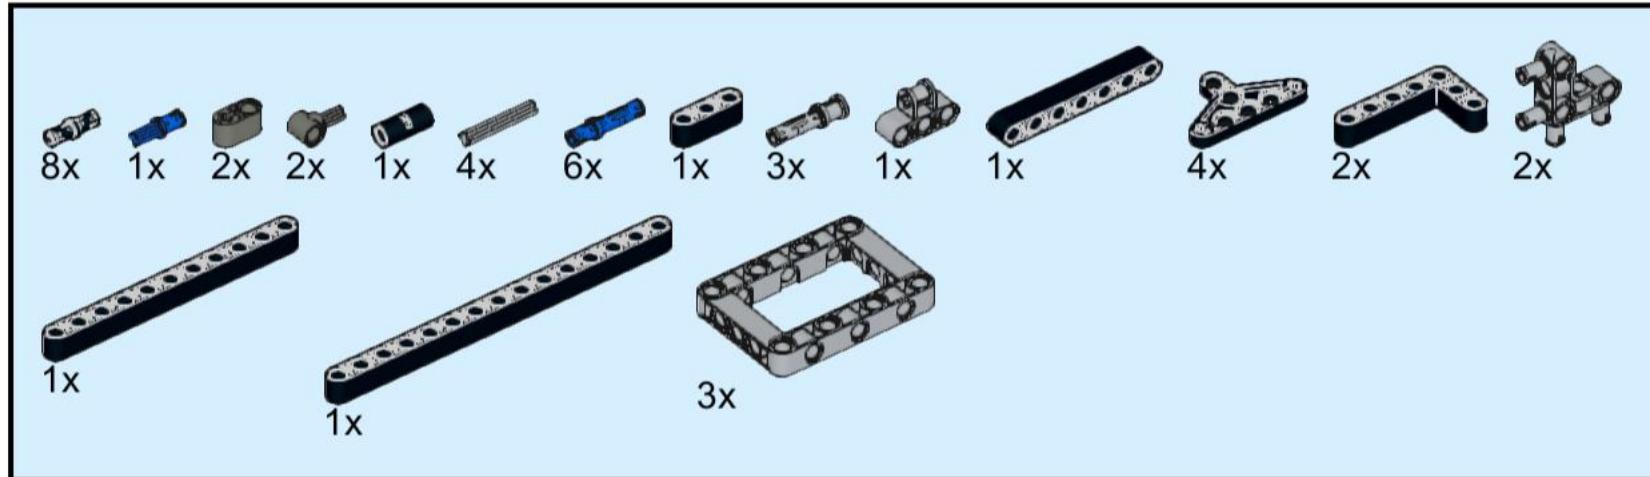

Bottom-up view of the front lift arm

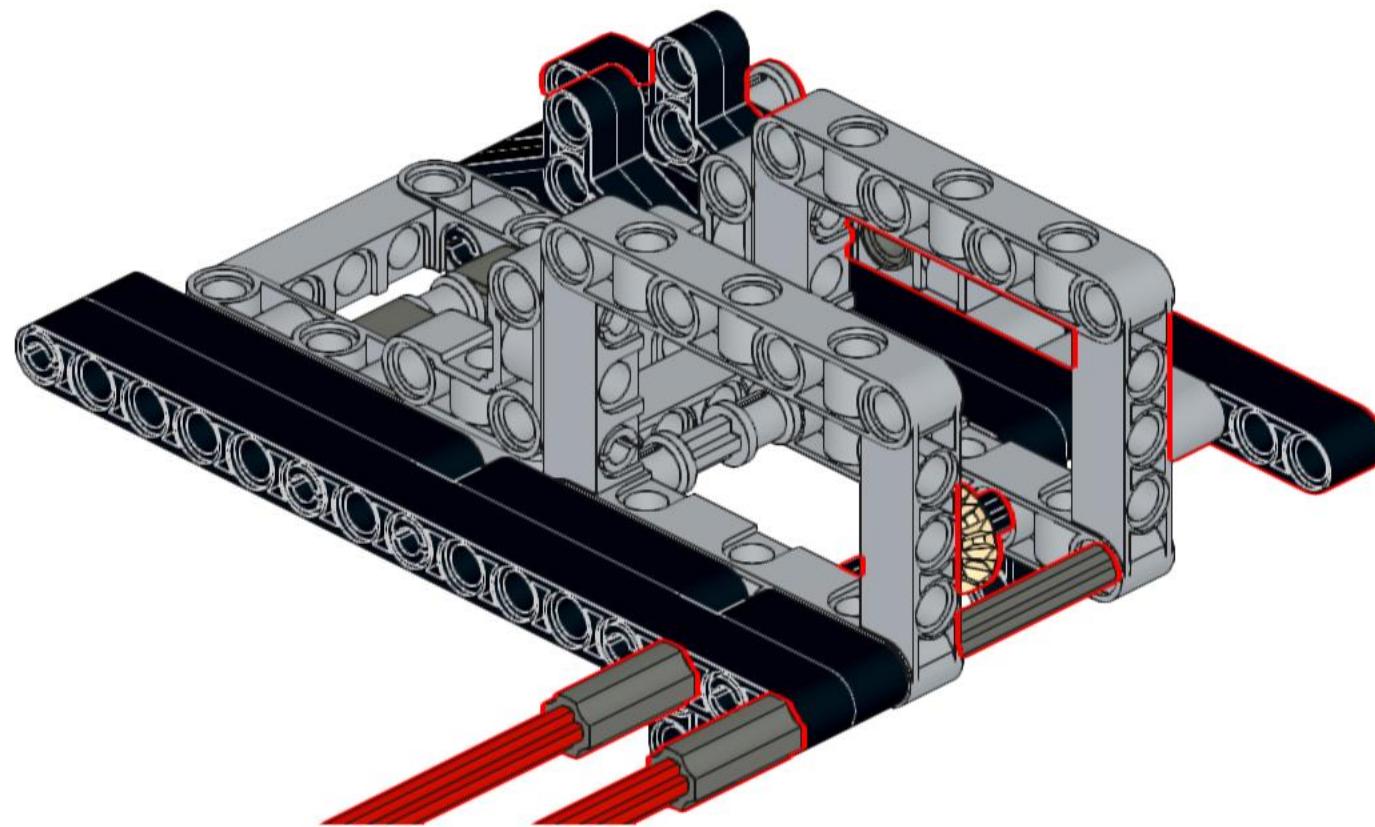

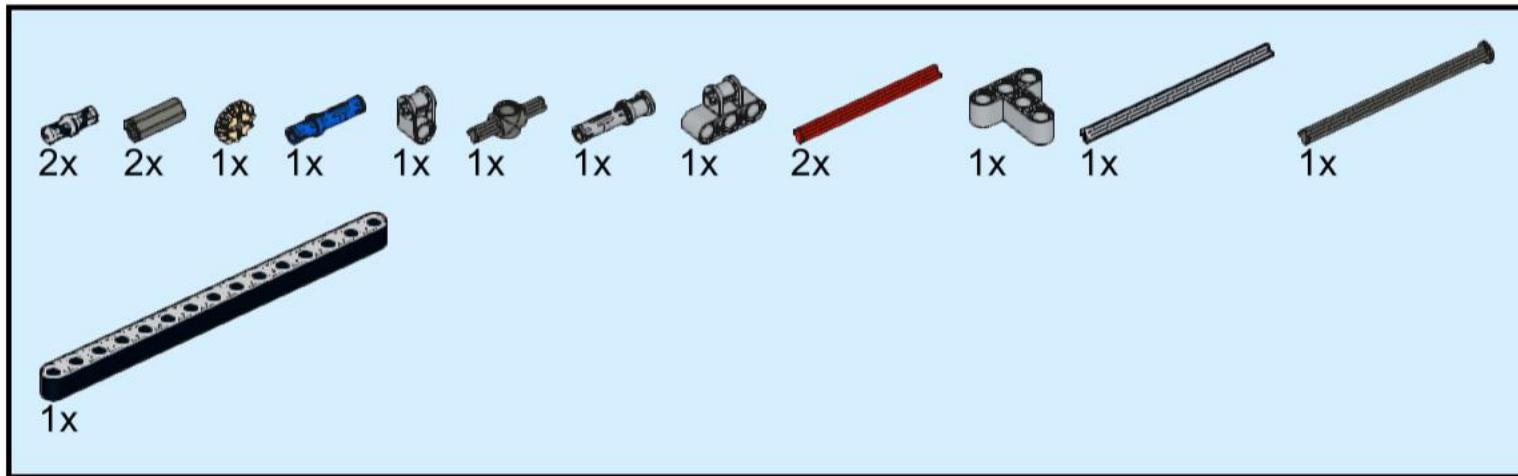

Bottom-up view of the rear lift arm
